# **CUKUROVA** GENERATOR SYSTEMS

## 1500 Rpm, 50Hz, 400V

CJ400VS

#### Volvo TAD1342GE diesel engine

#### Sincro SK315SS alternator

Gost certification

#### **Standard Generator Features**

- AMF, Automatic mains failure unit
- Heavy duty type, 6 cylinder, water cooled engine
- ♦ 55°C tropical type radiator
- Starter motor
- Lead acid battery
- Charging alternator
- Battery charge redressor
- Heavy duty, brushless type alternator
- Base frame with anti-vibration units
- Industrial type silencers
- Flexible exhaust compensator
- Block water heater unit
- Control panel with digital-automatic main control module
- Fan, fan drive, charging alternator drive and all rotating parts covered
- Radiator matrix covered by metal mesh against the mechanical damages
- Fabricated and welded steel base frame
- Anti-vibration mountings
- Engine and alternator manufacturer test reports
- Factory load, performance and function tests

#### **Optional Features**

- Automatic load transfer panel
- Automatic syncronization and power sharing systems
- Soundproof canopy
- Container type enclosers
- Road trailer
- Job-site trailer
- Protection circuit breaker
- Air start
- Remote type radiator
- ♦ Base fuel tank
- External type fuel tank
- Automatic fuel transfer system
- Residential silencer

type

#### **APPLICATION DATA**

#### Volvo TAD1342GE Engine

Standard Features

The TAD1342GE is a powerful, reliable and economical Generating Set Engine Diesel built on the dependable Volvo in-line six design.

#### Durability & low noise

Designed for easy, fast and most economical installation. Field tested to ensure highest standard of durability and long life. Well-balanced to produce smooth and vibration-free op er a tion with low noise level. To maintain a controlled working temperature in cylinders and combustion cham bers, the engine is equipped with piston cooling.

#### Low exhaust emission

The state of the art, high-tech injection and highly efficient charge air system with low internal loss es contributes to excellent combustion and low fuel consumption.

The TAD1342GE is EU Stage 2 emission certified.

#### Easy service & maintenance

Easily accessible service and maintenance points contribute to the ease of service of the engine.

#### Engine and Block

Cast iron cylinder block with optimum distribution of forces without the block being unnessarily heavy.

- Wet, replaceable cylinder liners
- Piston cooling for low piston temperature and reduced ring temperature
- Tapered connecting rods for increased piston lifetime

Crankshaft induction hardened bearing surfaces and fillets with seven

bearings for moderate load on main and high-end bearings

Case hardened and nitrocarburized transmission gears for heavy duty operation

Keystone top compression rings for long service life

 Viscous type crankshaft vibration dampers to withstand single bearing alternator torsional vibrations

\*Replaceable valve guides and valve seats

Over head camshaft and four valves per cylinder

#### **Technical Specifications**

	Manufacturer	VOLVO	
Manufacturer			
	Model	TAD1342GE	
	Туре	4 cycle, water-cooled, diesel engine	
	Number of cylinders	6	
	Cylinder arrangement	Vertical in-line	
	Displacement, Liters	12,78	
	Bore X Stroke, mm	131 X 158	
	Compression Ratio	18.1:1	
	Combustion System	Direct injection	
	Aspiration	Turbocharged, air-to-air charge cooled	
	Rotation	Anti-clockwise viewed towards flywheel	
	Gross engine power, kWb	343	
	Fan Power, kWm	10	
	Exhaust gas temp.(after turbo), °C	395	
	Exhaust gas flow (after turbo),m <sup>3</sup> / min	57	
	Mean piston speed, m / s	7.9	

Model	Standby kW		Prime kW		
Woder	Gross	Net	Gross	Net	
TAD1342GE	343	333	313	303	

#### Cooling System

Туре	Tropical, heavy duty
Ambient temperature, °C	55
Engine+Radiator coolant cap., Liters	44

♦Efficient cooling with accurate coolant control through a water distribution duct in the cylinder block. Reliable sleeve thermostat with minimum pressure drop

\*Belt driven coolant pump with high degree of effi ciency

Electronically controlled viscous fan drive provides lower noise and fuel consumption (optional).

Coolant filter as standard

#### Fuel System

Type of injection system Fuel injecter Governor type Direct injection Electronic unit injector Volvo / EMS 2.2

Electronic high pressure unit injectors

◆Fuel prefilter with water separator and water-in-fuel indicator / alarm◆Gear driven low-pressure fuel pump

\*Fine fuel filter with manual feed pump and fuel pressure switch

# Fuel Consumption grams per kWh %100 Load 191 g/kWh %75 Load 193 g/kWh %50 Load 198 g/kWh %25 Load 220 g/kWh

#### Lubricating System

Туре	Pressurized
Capacity, Liters	36
Lub oil pressure , kPa	370 - 520
Full flow oil cooler	

Full flow disposable spin-on oil filter, for extra high filtration

The lubricating oil level can be measured during operation

Gear type lubricating oil pump, gear driven by the transmission

#### **Electrical System**

Alternator	Bosch 80 A	
Starter motor (DC)	Melco, 24 Volt	
Starter motor power	7 kW	
EngineManagementSystem(EMS2), an electronically controlled processing		
system which optimizes engine performance. It also includes advanced		
facilities for diagnostics and fault tracing		

Possibility to perform a start battery test according to the NCPA requirements via CAN bus signals.

Sensors for oil pressure, oil temp, boost pressure, boost temp, coolant temp, fuel temp, water in fuel, fuel pressure and two speed sensors.

## ©omAp InteliLiteNT AMF25 Control Module

#### Description

The model AMF25 is an Automatic Mains Failure Control module.

- The modul is used to monitor a mains supply and automaticlly start a standby generator set.
- The module also provides indication of operational status and fault conditions automaticly shutting down the genset and indicating failures by means of
- on LCD display, and appropriate flashing LED on the front panel.
- \*Selected timers and alarms can be altered by the user from the front panel.
- \*Alterations to the system are made using USB and a PC. This
- interface also provides real time diagnostic facilities

- Specifications
- \$180mm x 120mm dimensions
- ♦Graphic 128 x 64 pixel display
- Developed 16-bit Microprocessor design
- Easy comprehended display
- ◆LED mimic diagram
- **SMS** messaging capability with suitable GSM Modem
- **PC** software is MS Windows based and allows the operator to control the
- module from a remote location (with USB)
- Easy pushbutton controls
- System parameters can be adjusted manually from the front panel
- ◊kVA.kW ve Cosφ measurements
- Communication with MODEM / Ethernet
- ♦Modbus RTU
- User selectable RS232 or RS485 communications
- \$3 analog inputs, 7 digital inputs, 7 digital outputs
- ٥ c

#### Model Codes and General Information

# Sincro Alternator SK315 SS Frame type Serie

#### Information Power Ratings

**Standby power rating** is for the supply of emergency power at variable load for the duration of the non-avalaibality of the mains power supply.No overload capacity is available at this rating.A standby rated engine should be sized for an avarage load factor of 80% based on published standby rating for 500 operating hours per year.Standby ratings should never be applied except in true emergency power failure conditions.

**Prime power rating** is available for unlimited hours per year with a variable load of which the average engine load factor is 80% of the published power rating, incorporation of a 10% overload for 1 hour in every 12 hours of operation which permitted

**Continuous power rating** is available for continuous full load operation.No overload is permitted.

Acc. to ISO 3046/1, BS 5514, DIN6271

#### Electric Formulas

Values	Formula		
kWe	kWm X E		
kWe	(U x l x 1.73 x pf) / 1000 kVA x pf		
kVA	(U x I x 1.73) / 1000	kWe / pf	
I (Amp)	(kWe x 1000) / (U x 1.73 x pf)	(kVA x 1000) / (U x 1.73)	
Frequency	( Rpm x N°Pole) / (2 x 60)		
Rpm	(2 x 60 x Frequency) / N°Pole		

kWm: Mechanical Power

- kWe : Electrical Power
- pf : Power factor
- E : Alternator efficiency
- I
   : Current (A)

   U
   : Voltage (V)

   kVA : Power

   Rpm: Revolutions per minute
